Professional Summary

Experienced Network Support & NOC Engineer with over 5 years of experience in ISP operations & network infrastructure. Skilled in designing, configuring, deploying, monitoring, and troubleshooting MikroTik, Cisco, Huawei, Arista, BDCOM, and OLT infrastructure across production environments. Strong hands-on experience with BGP, OSPF, MPLS, VLAN, PPPoE, NAT, GPON/EPON, IP networking, and network security. Experienced in deploying and managing NMS platforms including The Dude, LibreNMS, Zabbix, PRTG, and MRTG for network monitoring and performance analysis. Proficient in Linux administration, Python scripting, and network troubleshooting tools such as Wireshark and Nmap, with a growing focus on DevOps and Cybersecurity.

Work Experience

Sr. Engineer, ISP NOC

Manor IT Limited

Sep 2026 - Present

- **Network Design & Architecture:** Design scalable ISP network architecture including Core, Distribution, Access, Routing, VLAN, IP addressing, and redundancy.
- **Network Configuration & Deployment:** Configure and deploy MikroTik, Cisco, Huawei, Arista, BDCOM, OLT, and other network platforms with required routing, VLAN, BGP, PPPoE, NAT, firewall, and bandwidth policies.
- **Fiber & Access Network:** Design, configure, and maintain GPON/EPON, OLT/ONU, fiber, uplink, and customer access infrastructure.
- **Network Operations & Troubleshooting:** Monitor network performance and availability, troubleshoot complex outages and connectivity issues, and ensure timely service restoration.
- **Optimization & Service Assurance:** Analyze network performance and traffic, optimize capacity and configurations, coordinate implementation and maintenance, and ensure stable, scalable, and SLA-compliant services.
- **Network Monitoring & Management:** Install, configure, and manage The Dude, LibreNMS, MRTG, and other NMS platforms, including device integration, SNMP, traffic monitoring, alerts, performance monitoring, and network health tracking.

Sr. Support Engineer, Customer Experience

Link3 Technologies Limited

Dec 2022 - Aug 2026

- Provide technical support for a large ISP customer base, resolving network incidents and maintaining high service availability.
- Troubleshoot, and maintain MikroTik, Cisco, and Huawei routers, switches, and OLT devices.
- Maintain and monitor approximately 35 production network devices.
- Configure and troubleshoot VLAN, PPPoE, NAT, DHCP, DNS, VPN, and Layer 2/Layer 3 networking.
- Lead fiber operations including OTDR testing, fiber splicing, and fault isolation.
- Coordinate field engineers and technical teams during network outages.

Fiber Infrastructure Engineer, Fiber

Global Link Sylhet

Dec 2020 - Jun 2022

- Installed, maintained, and troubleshot fiber optic infrastructure.
- Performed OTDR testing, fiber splicing, and preventive maintenance.
- Assisted in network deployment and infrastructure upgrades.
- Improved network reliability through proactive maintenance and troubleshooting.

Education

North East University Bangladesh, Sylhet

May 2016 – May 2021

Bachelor of Science (Engg.) in Computer Science & Engineering

Result: 3.49/4.00

Sylhet Government College, HSC

June 2012 – June 2014

Science

Result: 4.60/5.00

Bangladesh Bank School Sylhet, SSC

Jan 2010 – Apr 2012

Science

Result: 5.00/5.00

Technical Skills

- **Programming & Automation:** C, Java, Python, LATEX, Bash, Git, GitHub
- **Embedded Platforms:** Arduino
- **Operating Systems & Network CLI:** Linux, Cisco IOS, Mikrotik RouterOS
- **Web Development:** HTML, CSS, JavaScript, MySQL, Bootstrap, Django
- **Virtualization:** VMware
- **System Administration:** Linux Server, Active Directory
- **Cyber Security:** Wireshark, Nmap, Kali Linux
- **Monitoring Tools:** Zabbix, PRTG

Certifications

- **Mikrotik** - MTCNA, MTCRE, MTCSE
- **Rujie** - RCNA-Routing & Switching, RCNA-WLAN
- **CISCO** - CCNA(Cisco Certified Network Associate)
- **Huawei** - HCIA(Huawei Certified ICT Associate)

Projects

- **Bus Management System:** PHP, MySQL
- **Food Review using Machine Learning (Sentimental Analysis):** HTML, Bootstrap, Django, PostgreSQL
- **Agriculture Based Project:** PHP, HTML, CSS, MySQL
- **Mikrotik Assistant:** Python
- **Automatic Light Switch:** Arduino

Achievements

- **Best Executive Delegate:** NEUB CSE Society 2019-2021
- **Engineer of the year:** Global Link 2021
- **2nd Runner Up:** NEUB Tech Arena 2019
- **Runner Up Trainee:** TSoft IT
- **1st Runner Up(Debate):** 9th Regional Leadership Camp 2008, Fulkori Ashor
