Professional Summary

Sr. Engineer, ISP NOC with 5+ years of experience in ISP operations, network infrastructure, enterprise connectivity, and technical support. Experienced in network monitoring, configuration, Layer 2/Layer 3 troubleshooting, incident management, and service restoration, with hands-on experience in MikroTik, Cisco, Juniper, Huawei, BGP, OSPF, MPLS, VLAN, and ISP access networks.

Work Experience

Sr. Engineer, ISP NOC

Manor IT Limited | Sep 2026 - Present

- **Network Configuration & Maintenance:** Configure, maintain, and troubleshoot MikroTik, Cisco, and Juniper routers and switches.
- **Layer 2 & Layer 3 Troubleshooting:** Identify and resolve VLAN, switching, routing, and IP connectivity issues across the ISP network.
- **Distributor & Reseller Support:** Configure and maintain MikroTik networks for distributors and resellers and provide technical support.
- **Routing & Network Services:** Configure and troubleshoot BGP, OSPF, VLAN, NAT, firewall, and bandwidth management.
- **Network Monitoring & Management:** Manage The Dude, LibreNMS, MRTG, and other NMS platforms for SNMP-based device monitoring, traffic analysis, alerts, performance, and network health tracking.
- **Incident & Service Management:** Monitor network availability, troubleshoot outages, handle incidents and escalations, and ensure timely service restoration.

Sr. Support Engineer, Technical

Link3 Technologies Limited, Sylhet | Dec 2022 - Aug 2026

- Troubleshoot MikroTik, Cisco, and Huawei devices and supported retail and corporate customer connectivity issues.
- Managed OLT, GPON/EPON, and fiber network infrastructure and supported rapid restoration during outages.
- Provided technical solutions, escalated critical incidents, and maintained operational documentation and reports.
- Led and coordinated fiber installation and maintenance teams, assigned field tasks, and monitored operational activities.

Fiber Infrastructure Engineer, Fiber

Global Link Sylhet | Sep 2020 - Dec 2022

- Managed fiber installation and maintenance activities, field task assignments, and outage restoration.
- Monitored fiber network performance, maintained operational reports, and audited network details.

Technical Skills

Routing & Switching: BGP, OSPF, MPLS, VLAN, IP Networking

Platforms: MikroTik RouterOS, Cisco IOS, Juniper, Huawei, OLT

NMS & Monitoring: The Dude, LibreNMS, MRTG, Zabbix, PRTG, SNMP

Access Network: GPON/EPON, ONU/OLT, Fiber Optics

Systems & Tools: Linux, Wireshark, Nmap, Python, Bash, Git

Certifications

MikroTik: MTCNA, MTCRE, MTCSE | **Cisco:** CCNA | **Huawei:** HCIA | **Ruijie:** RCNA Routing & Switching, RCNA WLAN

Education

B.Sc. Engineering in Computer Science & Engineering

North East University Bangladesh, Sylhet | 2016 - 2021 | CGPA: 3.49/4.00

Achievements

- Engineer of the Year - Global Link, 2021
- Best Executive Delegate - NEUB CSE Society, 2019-2021

Projects

- MikroTik Assistant - Python
- Food Review using Machine Learning - Django/PostgreSQL
